# VAPOR RECOVERY

**W**ith over 50 years experience and successful vapor recovery projects operating in over 20 countries—both offshore and onshore—HY-BON Engineering brings unparalleled expertise in low pressure gas management systems. Put our experience to work for you today!

**Compressor Styles:**

- Rotary Screw
- Sliding Vane
- Reciprocating
- Liquid Ring
- Jet Pump
- Beam Gas

**Applications:**

- Vapor Recovery
- Gas Boosting
- Casinghead Gas Reduction

2004 West Africa installation.  
Dual rotary vane – 4 MMSCFD @  
40 psi

2004 South America installation.  
Dual rotary screw – 1.8 MMSCFD  
@ 250 psi (x2)

2004 Gulf of Mexico installation.  
Rotary screw 300 MCFD @ 250  
psig

**We don't just package compressors—we engineer solutions!**
